

# PARENTING

## Tips

Usual Behavior seen in children: tantrums, shout & scream, hit others, not do as they're told, break things, spill things, squash things, not listen or concentrate. Children will always push against boundaries. They are checking out what their parents will draw the line at, what they can and can't do. This helps them understand what is acceptable and what isn't. Children do not usually misbehave just to upset or annoy their parents. There is often a reason behind a child's behavior. It maybe they are upset or anxious about school, they feel jealous of their brother or sister, they want their parent to listen to them, they want their parent to spend time with them.
